Subject: Krieger Waterproofing and Colonnade Repairs Construction Update #54

Dear all,

Update #54 is the fifty-fourth installment in a series of weekly updates that will provide important project-related information as well as an overview of activities that can be expected during the upcoming two week period.

Upcoming scheduled activities May 25 through June 08:

Notable events planned for this period:

1. Continue to install the 2nd floor refurbished windows, north face of Krieger Hall.
2. Continue to remove top four feet of sheeting and shoring earth retention system and begin final backfill.
3. Start the reinstallation of the Krieger west vestibule refurbished windows and doors.

Noise Impact: None

- Continue to monitor interior and exterior survey points at MSEL and Homewood Museum. On-going process.

Noise Impact: Low

- Continue installation of roof members and waterproofing at the colonnade.
- Install new copper roof at the colonnade.
- Continue to install new waterproofing measures on the east plaza and colonnade.
- Continue to make minor repairs to the Krieger masonry face and wash the brick.
- Continue to remove top four feet of sheeting and shoring earth retention system.
- Begin removal of selective site staging and materials storage equipment & supplies.

Noise Impact: Medium

- Continue reconstruction of the colonnade and Krieger west vestibule. On-going process.
- Begin to install the colonnade south (marble) stairs.
- Begin to install the brick and marble façade at the new window wells and accessible ramp.
- Begin to backfill along Krieger north face including the new window wells and ramp to grade.
- Continue to install the 2nd floor refurbished windows, north face of Krieger Hall.
- Continue east plaza waterproofing repairs.

Noise Impact: High

- Reinstall the Krieger north face balcony rails.

Please note that as the majority of the above activities are outdoors, weather can affect actual performance.

“Town hall” type meetings will be offered by JHFRE and the construction manager to those who would benefit from additional specific information about the work and its potential impact on the campus. These meetings will provide the opportunity for JHU personnel to ask questions of the construction management team. Please contact me directly if you have interest in attending a meeting.

For additional information, you are encouraged to visit the JHFRE Krieger Waterproofing and Colonnade Repair website at <http://www.jhfre.jhu.edu/projects/KriegerWaterproofing/kriegerUpdate20160314>.

As always, please forward to me the contact information for anyone who should be added to, or dropped from, the distribution list. Should you have any questions or concerns, please feel free to contact me.

Regards,
